nr. ANV - 034 / 20 September 2026

Procurement of Server Equipment

Lot 1

1. Introduction

The **National Customs Association (ANV)** invites qualified and interested suppliers to submit an offer for the supply of the equipment specified in this Terms of Reference (ToR).

The purpose of this procurement is to acquire reliable and technically compliant equipment that meets the operational and technical requirements defined in this document. The selected supplier will be responsible for the delivery of the equipment in accordance with the required technical specifications, quantities, delivery schedule, and other conditions established herein.

All proposed equipment shall meet or exceed the minimum technical requirements specified in this ToR and shall be new, unused, and supplied through legitimate distribution channels. Where applicable, the equipment shall include all necessary accessories, licenses, documentation, and components required for its proper installation and operation.

Bidders are requested to carefully review the technical specifications and procurement conditions and to provide complete information regarding the proposed equipment, including the manufacturer, exact model, technical characteristics, warranty conditions, delivery period, and financial offer.

The submitted offer should clearly demonstrate compliance with the requirements of this ToR and contain sufficient technical documentation to enable ANV to evaluate the proposed solution.

ANV reserves the right to request additional information or clarification regarding the submitted offers during the evaluation process.

2. Conditions

No	Condition	Recommended wording / requirement
1	Offer submission period	Offers shall be submitted within 5 calendar days from the date of publication/issuance of the tender.
2	Price structure	Prices shall include all costs related to delivery, transportation, insurance, installation, configuration, commissioning, licenses, accessories and other required services, except VAT.

3	VAT regime	The project is developed and financed by GIZ Moldova. The procurement shall be carried out under the applicable 0% VAT regime, subject to the relevant supporting documentation and applicable legislation.
4	Delivery period	The delivery period shall not exceed 30 calendar days from the date of contract signature.
5	Delivery	Delivery shall be made to the location(s) specified by the Contracting Authority. In the case of international delivery of goods, the applicable delivery terms shall be clearly specified in the offer in accordance with the current **Incoterms® rules**.
6	Partial delivery	Partial deliveries shall be permitted only with the prior written approval of the Contracting Authority.
7	Offer validity	The offer shall remain valid for at least 30 calendar days from the submission deadline.
8	Currency	The financial offer shall be submitted in **MDL (Moldovan Lei)** for bidders established in the Republic of Moldova and in **EUR (Euro)** for bidders established outside the Republic of Moldova.
9	Fixed prices	The offered prices shall remain fixed throughout the contract implementation period and shall not be subject to adjustment unless expressly provided for in the contract.
10	Payment conditions	Payment shall be made following successful delivery, verification and acceptance of the equipment/services and receipt of the required financial documents.
11	Payment method	Payment shall be made by bank transfer within **5 business days** following the acceptance of the goods.
12	Equipment condition	All equipment shall be new, unused, not refurbished or reconditioned, and supplied in its original manufacturer packaging where applicable.
13	Equipment origin	The bidder shall identify the manufacturer, exact model and country of origin of the proposed equipment.
14	Technical compliance	The offered equipment shall meet or exceed all minimum technical requirements specified in the tender documentation.
15	Equivalent products	Where a manufacturer, model or technology is referenced, equivalent or superior solutions may be accepted, provided that full technical compliance is demonstrated.
16	Technical documentation	The bidder shall provide official datasheets, brochures, manufacturer documentation or links/references sufficient to verify compliance with the required technical specifications.
17	Warranty	All equipment shall be covered by a minimum 36-month warranty, unless otherwise specified for individual items.
18	Accessories	All cables, mounting kits, power cords, adapters, transceivers, licenses and other accessories required for full operation shall be included in the offer, where applicable.
19	Licensing	All required software, subscriptions and licenses shall be genuine and legally supplied for the period specified in the technical requirements.
20	Inspection and acceptance	Equipment shall be subject to inspection, technical verification and functional testing before final acceptance.
21	Non-compliant equipment	Equipment that does not comply with the contractual technical requirements shall be replaced by the supplier at its own expense.

22	Bidder experience	The bidder shall demonstrate relevant experience in supplying and/or implementing similar IT infrastructure solutions.
23	Manufacturer authorization	For critical equipment, the Contracting Authority may require proof that the bidder is an authorized partner/reseller or is otherwise authorized to supply and support the proposed products.
24	Subcontracting	Any intended subcontracting shall be declared in the offer and may be subject to prior approval by the Contracting Authority.
25	Confidentiality	The supplier shall maintain confidentiality regarding technical, network, security and organizational information obtained during implementation.
26	Deadline	24 September 2026 17:00
27	Submission procedure	All offers shall be either **electronically signed** or **duly signed and stamped**, as applicable, and shall clearly indicate the **date of signature**.
28	Submission	All offers shall be submitted electronically by email to contact@anv.md within the specified submission deadline.
29	Evaluation and Award Criteria	Offers will be evaluated based on: • **Technical compliance** with the minimum requirements of the ToR; • **Total evaluated price**; • **Stock availability and confirmed delivery time**; • **Warranty conditions**. Only technically compliant offers will be considered for award. The contract will be awarded considering the **lowest evaluated total price together with the shortest feasible delivery time**. ANV may request additional information or clarifications during the evaluation process.

3. Technical Requirements

Minimum Technical Specification – Enterprise Rack Server

Parameter	Minimum Technical Requirements
Server type	Enterprise-class rack-mount server
Form factor	Rack-mount, maximum 1U
Chassis	Chassis supporting minimum **4 × 2.5-inch (SFF) hot-plug drives**
Processor quantity	Minimum **1 processor installed**
Processor architecture	Intel Xeon or equivalent enterprise-class x86-64 processor
CPU cores	Minimum **6 physical cores**
CPU threads	Minimum **12 threads**
CPU base frequency	Minimum **2.0 GHz**
Processor cache	Minimum **18 MB**
Memory technology	DDR5 ECC memory
Installed memory	Minimum **64 GB**
Memory speed	Minimum **4400 MT/s**
Memory protection	ECC support
Installed storage	Minimum **2 × 960 GB enterprise-grade SSD**

Drive form factor	2.5-inch / SFF, hot-plug
Drive interface	SAS or SATA enterprise SSD
Drive endurance / workload	Enterprise Read Intensive, Mixed Use, or higher endurance class
Storage controller	Dedicated enterprise storage/RAID controller
RAID support	Hardware support for minimum RAID 0 and RAID 1
Network connectivity	Minimum **4 × 1 GbE Base-T (RJ-45)** Ethernet ports
Network adapter	Enterprise-class integrated, OCP or PCIe network adapter
Expansion	Minimum **1 × PCIe expansion slot**
Power supplies	Minimum **2 × hot-plug power supplies**
Power redundancy	Redundant **1+1** power supply configuration
Power supply capacity	Minimum **1000 W each**
Power supply efficiency	High-efficiency enterprise/server-grade power supplies
Remote management	Dedicated integrated out-of-band remote management controller
Remote monitoring	Remote monitoring of server health, hardware status, temperatures, power supplies, storage and system events
Remote administration	Support for remote configuration, diagnostics and server administration
Security	Hardware/firmware-based server security features and secure firmware management
Rack mounting	Compatible rack-mounting rail kit included
Component replacement	Hot-plug replacement for storage drives and power supplies
Operating mode	Designed for continuous **24×7 operation**
Management software	Manufacturer-provided server monitoring and management tools
Warranty / support	Minimum **3 years manufacturer warranty and/or manufacturer technical support**
Equipment condition	New, unused, current-generation enterprise equipment
Compatibility	All supplied components must be fully compatible with the proposed server and supported by the server manufacturer

4. Final Provisions

Bidders are expected to carefully review all requirements specified in this Terms of Reference and submit a complete offer demonstrating compliance with the requested technical, organizational, delivery, warranty, and commercial conditions.

The bidder shall be responsible for ensuring that all proposed equipment and related components are compatible, complete, and suitable for the intended purpose. Any components, accessories, licenses, or other items necessary for the proper operation of the proposed solution shall be clearly identified and included in the offer, where applicable.

ANV reserves the right to request additional information, supporting documentation, or clarifications during the evaluation process in order to verify compliance with the requirements of this Terms of Reference.

The submission of an offer shall be considered confirmation that the bidder has reviewed, understood, and accepted the requirements and conditions specified herein.

The selected supplier shall deliver the equipment in accordance with the approved offer and contractual conditions. Final acceptance shall be subject to verification of the delivered equipment,

quantities, technical compliance, documentation, and, where applicable, successful installation, configuration, and testing.

ANV reserves the right to accept or reject offers in accordance with the applicable procurement procedures and the conditions established for this procurement.

Virgiliu MÎȚU,
President of National Customs Association (ANV)
